

BETTER BATHROOMS & KITCHENS

## MODERN MASTERPIECE

SPECIALISTS IN CUSTOM BUILT KITCHENS

Being at the cutting edge of new trends, quality materials and with proven designs including modern, contemporary, French provincial and country styles, Better Bathrooms & Kitchens are a specialist bathroom and kitchen renovation company that custom design to your exact specifications.

This bathroom, designed by Garrett Hebden, is the result of many consultations with his clients where he was able to learn about their specific needs and desires for the space. Taking your project from the design concept through to a beautifully finished project, Better Bathrooms & Kitchens work with you to ensure the outcome is one that you'll love for years to come.

Heading the design and project management team, company owner Garrett is a registered builder with over 21 years kitchen and bathroom renovation experience.

The owners of this bathroom wanted a modern space that was unique in its design, but also practical. Garrett was able to achieve this through using an impressive, offset above-counter basin and floor level entry shower base with frameless showerscreen that's easy to keep clean.

A heated towel rail and a large vanity unit with storage space make the bathroom highly functional. Adding to the clever design is a basin that's positioned at the end of the vanity to allow for maximum working space.

A reconstituted stone vanity, Quarella reconstituted stone wall and floor tiles, baked enamel cabinets and stainless steel T-bar handles are just some of the striking design elements incorporated into the space.
