

# CONVENIENT KITCHENS

The team at Better Kitchens has the expertise to bring your dream kitchen to life. Supported by craftsmen and installers with more than 30 years of experience, Better Kitchens thrives on client satisfaction and customer referrals.

Visit Better Kitchens' convenient showroom where the team can walk you through all the steps of your kitchen design. Browse through the latest range of finishes for benchtops and cabinets from companies such as Caesarstone, Smartstone, Polytec and Laminex. You will see high-end European appliances in real kitchen settings and experience the efficiency of Blum, Häfele and Kethy hardware.

Better Kitchens' designers can develop your kitchen from sketch designs to complementary 3D computer visualisations in 15 minutes. Whether you prefer a Hamptons-style kitchen, a modern Italian design or any style in between, Better Kitchens can tailor each custom-built project to suit.

Detailed joinery drawings are prepared by the in-house team and all joinery is made using the latest German machines in the company's own factory. In this way, Better Kitchens can thoroughly manage your project from beginning to end.

Exceptional service and high-quality results at competitive prices are the cornerstones of the Better Kitchens philosophy. The company provides a hassle-free service and can help you to coordinate tradesmen to suit your needs.
